

SWEDEN YACHTS 38 —A MASTERPIECE

The Sweden Yachts 38 is a pure sailing yacht with modern, racy lines; yet she has a classical beauty which will last through the years.

The mast and rig are well dimensioned to carry the large sail area; this, combined with the modern hull lines, gives the yacht an amazing turn of speed, even in the lightest wind. The Sweden Yachts 38 has a very favourable IOR rating and she is extremely competitive at all levels of racing.

As you can see from the interior pictures, the Sweden Yachts 38 is very well appointed and will give you a comfortable second home. This degree of luxury is especially important for long distance sailing; the Sweden Yachts 38 will meet your highest expectations. The interior is finished in solid mahogany, the fabrics are both durable and attractive, the cabins are functional for living on board both at sea and in harbour.

The pace of a true cruiser-racer!

A galley which will satisfy the most demanding chef.

The cockpit, deck and coachroof are teak laid as standard in the Continental version. With regard to equipment, only the best has been considered good enough, from the extra big winches down to the smallest shackle.

In the cockpit there is ample room for everyone on board. The companionway has been designed to be especially comfortable and protected.

Few performance yachts can offer the same deck space as the Sweden Yachts 38. Pictures can not do justice to this beautiful craft — only a personal inspection of every minute detail will reveal the thought, preparation and craftsmanship which made the Sweden Yachts 38 a MASTERPIECE.

The saloon table accommodating up to ten people

The feeling of luxury and comfort aboard is absolute, and you can enjoy extended periods of exciting sailing without feeling crowded. A sense of space and privacy has been achieved by separating the saloon, galley and navigation area from the three luxurious and well-proportioned cabins. When you have guests, you will find the saloon large enough to entertain up to ten people around the satin-finished mahogany table; the settees are warm and offer the comfort of any fireside armchair.

Three comfortable berths in the two separate aft cabins

The navigation area is spacious and is equipped with an ingenious fold-down instrument panel.

The toilet compartment is roomy with ample showering space.
